BIG RAILWAY ALLIANCE

ST. PAUL AND MISSOURI PACIFIC
ROADS SOON TO BE CLOSE-
LY CONNECTED.

AFTER WESTERN BUSINESS

Director of the St. Paul Road Says It Has a Traffic Agreement With the Union Pacific but Has Not Been Treated Properly and Feels That Some Other Arrangement Is a Matter of Necessity.

New York, Sept. 9.—A director of the St. Paul road during the day frankly confirmed the statement that the St. Paul and Missouri Pacific will soon be closely allied and discussed the deal between the two roads quite freely.

"We have not been getting our proportion of Western business," said the director. "We have a traffic agreement with the Union Pacific, but have not been properly treated by that road. We have to take just what they see fit to give us in the way of traffic and the amount is not satisfactory. Therefore, we have felt that some other alliance was, in a way, a matter of necessity, and we have decided to connect with the Missouri Pacific."

"The St. Paul is now building a line to Kansas City. When this line is completed it will be one of the very best Chicago-Kansas City lines in every respect. The arrangement between the Missouri Pacific and the St. Paul will be of great benefit to both roads. Through it we will get to Denver and other points in Colorado."

From another source it was learned that the Missouri Pacific-St. Paul agreement has already been signed. The suggestion made by the director that the Union Pacific had not been liberal with the St. Paul in giving it traffic will come as a surprise to the public, as the Rockefeller influence, which is absolute in its power in St. Paul, was sufficiently strong in Union Pacific to make pleasant relations between St. Paul and Union Pacific.

The Union Pacific, it is said, will soon enter into competition with the Great Northern-Northern Pacific system for steamship business handled at North Pacific coast ports. At a special meeting of the Oregon Short Line stockholders to be held Oct. 1, a proposition so to enlarge the company's charter as to permit it to build ships and enter into a shipping business will be brought up. Through this company the Union Pacific interests purposes to build and place in the North Pacific port trade a line of large ocean carriers to compete with the mammoth ocean vessels being built for the Hill roads.

The Union Pacific, through the Southern Pacific, now controls the Pacific Mail company, whose ships enter San Francisco, but it feels the need of ships plying in and out of Puget sound ports, as the foreign trade of these ports is increasing at a vastly greater rate, relatively speaking, than that of other ports.

EXCURSIONS TO TWIN CITIES.

Western Passenger Association Refuses to Make Certain Rates.

Chicago, Sept. 9.—Application which was made by the merchants of St. Paul and Minneapolis for six reduced rate excursions to those cities from territories within a radius of 200 miles has been denied by the Western Passenger association. The merchants desired a rate of one and one-fifth fares for the round trip and it was explained that such action would antagonize the merchants in all the intervening territory. After having tried the effect of such concessions the Western Passenger association decided that no more excursions of this kind would be granted to any city.

INTENSE INTEREST IN LONDON.

Papers Devote Lengthy Editorials to the Haytian Gunboat Incident.

London, Sept. 9.—Intense interest has been evoked here by the sinking of the revolutionary gunboat Crete-a-Pierrot at Conaives, Hayti, by the German cruiser Panther, and the morning papers devote lengthy editorial articles to the incident. A majority of the papers agree that there is no likelihood of serious developments following the occurrence, but they expatiate upon the ominous possibilities which the affair has evoked.

Typothetae Session Opens.

Pittsburg, Sept. 9.—Four hundred delegates, including 100 women, were present at the opening of the sixteenth annual convention of the United Typothetae at the Hotel Schenley, this city, during the day. The first session was devoted to the reception of the delegates and organization. The convention will last throughout the week.

Another Sad Blow.

Enpeck (excitedly at 2 a. m.)—Wake up and listen, my dear. I'm sure there is a man in the house.
Mrs. Enpeck (sleepily)—Do keep quiet, Henry. You flatter yourself.

The Rule of Golf.

Redd—Can you always tell a beginner on the golf links?
Greene—Well, as a rule, you can't tell him much.—Yonkers Statesman.

NO BLOOD WAS SHED.

American Naval Officer Describes a "Fierce" Venezuelan Battle.

Washington, Sept. 9.—Commander John A. H. Nickels, commander of the gunboat Topeka, which has just returned to the United States from duty in Hayti and Venezuela, did not care to discuss the situation in Venezuela, which he has had a good opportunity to study while cruising along the coast near Caracas, except in general terms. The commander referred laughingly to a night when a large party of revolutionists descended on Puerto Cabello and met about an equal number of government troops. An apparently fierce fight, in which several thousand rounds of ammunition was spent, took place. Officers and crew of the Topeka were prepared to look for a long string of dead laden wagons next day, but morning brought word that there had been no fatalities.

AN INTERESTING SIGHT.

River on the Island of St. Vincent Is a Stream of Fire.

Kingston, Island of St. Vincent, Sept. 9.—The sights in the Windward district of this island resulting from the eruption of the Soufriere volcano Sept. 3 are very interesting. The Rabacca river even now is a stream of fire a quarter of a mile or more wide. The greater part of the Rabacca estate is wrapped in vapor and there are mimic eruptions everywhere. The river bed is continuously throwing up columns and dense clouds of steam, mud and pebbles. The land has spread farther seaward and is changing considerably the appearance of the district from what it was prior to Sept. 3. This was probably caused by the ejecta that flowed down the slopes filling the sea about the coast.

FATAL ALPINE ACCIDENTS.

Three More Tourists Lose Their Lives in the Mountains.

Vienna, Sept. 9.—There were three fatal Alpine accidents last Sunday. Three members of the Vienna Social and Touring club, while ascending the Rax Alps, lost their way. Two of the climbers fell a distance of 600 feet and were killed. The third member of the party, who survived, was obliged to stand upright upon a narrow ledge of rock from noon of Sunday until 10 o'clock Monday morning, when he was rescued.

A maker of musical instruments, while on a climbing expedition, fell and broke his neck on the Klestergesteig, near Vienna. The death record on the Rax Alps for the present season has now reached the total of thirty-two persons.

GOVERNOR STONE IN NEW YORK.

Rumored His Visit Is in Connection With the Coal Strike.

New York, Sept. 9.—Governor Stone of Pennsylvania has arrived in this city and registered at the Fifth Avenue hotel. He retired shortly after his arrival and refused to see any reporters.

It has been understood that Governor Stone's visit here is connected with the coal strike. Although it could not be learned whether President Baer of the Philadelphia and Reading railroad would be in this city during the day it was thought that, as the regular meeting of the coal presidents did not take place last Tuesday, Mr. Baer will likely come to New York.

PASSENGER TRAIN WRECKED.

Locomotive, Smoker and Baggage Car Completely Demolished.

Terre Haute, Ind., Sept. 9.—Big Four passenger train No. 19 was wrecked at the Illinois Central crossing three-quarters of a mile west of Mattoon, Ill., by running into a derailling switch. The locomotive was demolished and the smoker and baggage car completely wrecked. Fireman Brown was caught under the engine and seriously scalded. A tramp riding on the head end was cut and bruised. Engineer Robinson saved his life by jumping. None of the passengers were injured.

TROOPS HURRYING TO COLON.

Colombian Soldiers Preparing for an Insurgent Attack.

Colon, Colombia, Sept. 9.—Over 1,000 government troops have been hurriedly sent to Colon from Panama, and additional intrenchments are being erected at Monkey hill, a mile from Colon on the railroad, and other points, in expectation of an insurgent attack.

The gunboat Boyaca, which was captured by the insurgents from the government, has been seen mobilizing troops under the command of the insurgent general, Herrera, in the direction of Panama.

Fell Ninety-six Feet.

St. Louis, Sept. 9.—While Clem Dunlap and John Sexton were preparing to raise a smokestack at the Koken iron works on Chateau avenue the pole upon which they were working ninety-six feet above the ground broke. Sexton fell the entire distance but may live. Dunlap caught in a rope swing, which saved his life.

Preferred Death to School.

Muscatine, Ia., Sept. 9.—Because the grandparents of fourteen-year-old Harvey Applegate, an orphan, insisted that he start to school, the boy, who had expressed a wish to become a farmer, blew out his brains at his home in Montezuma.

AN UNUSUAL PLURALITY

REPUBLICANS VICTORIOUS IN THE ELECTIONS THROUGHOUT MAINE.

COMPLETE RETURNS NOT IN

Legislature, While Strongly Republican, Will Have an Uncommon Number of Democratic Members—All Four Congressmen and the Governor Secured by Republicans by Safe Margins.

Portland, Me., Sept. 9.—Maine rolled up a big off year plurality for the Republicans in the election during the day, it approximating 27,000 in comparison with 12,000 for the average of other years. Complete returns will be very late owing to the remoteness of many towns. Figures from 240 cities and towns give Hill, Rep., 40,962; Gould, Dem., 24,587. The same towns two years ago gave Hill, Rep., 47,431; Lord, Dem., 27,764.

The legislature, while as usual strongly Republican, will have an uncommon number of Democratic members, some of the strongest Republican towns of the state electing representatives of that party. The senate will have one Democrat in thirty-one members, L. M. Staples of Knox county.

In the First congressional district, Congressman Amos L. Allen, Rep., was re-elected over Dr. Seth C. Gordon of Portland, and Fred E. Irish, Socialist, with a plurality of about 5,500, as against a plurality of 7,000 two years ago. Mr. Allen, who succeeded Hon. Thomas B. Reed, for whom he was secretary, ran behind his ticket in York and Cumberland counties. Dr. Gordon's personal popularity contributed to this result. An incident was the increase in the Socialist vote, increasing from seventy two years ago to 300 this year in Portland alone.

In the Fourth district, owing to its great area, the returns are not yet complete, but the estimate is that Congressman Llewellyn Powers, Rep., had been re-elected by a plurality of 7,000 over Thomas White, Dem. In the Third district Congressman E. C. Burleigh got the Prohibitionist vote and ran slightly ahead of his ticket in defeating E. H. Henson.

In the Second district Congressman C. A. Littlefield had no difficulty in defeating his Democratic opponent, running well ahead of his ticket.

The city and county contests nearly all presented features, but the most interesting was that in Cumberland county, of which the late Rev. Samuel Pearson was sheriff. The shrievalty fight was won by Pennell, Dem., by 1,000 in Portland and nearly 2,000 in the county.

PRESIDENT PALMA'S ATTITUDE.

Refuses to Declare Himself for Any Cuban Political Party.

Havana, Sept. 9.—President Palma, speaking of the movement on foot to have him declare himself for either the Republican or the National party and the leadership of the party with which he identifies himself, said: "It is not my intention to make any arrangement with the political parties represented in congress with the view of obtaining a majority of votes for any measure. I was elected inde-

pendently of both these parties, whose principles are practically the same. I am here to work in the interest of the entire country and not as a leader of political parties. Considering the situation in Cuba I think the patriotism of the members of congress is sufficient stimulus to solve pending questions along conservative lines."

BROTHERHOOD OF FIREMEN.

Grand Master Sargent Formally Tenders His Resignation.

Chattanooga, Tenn., Sept. 9.—The business sessions of the convention of the Brotherhood of Locomotive Firemen will open in the morning. The grand officers predict the convention will be in session from ten days to two weeks. Grand Master Sargent, lately appointed commissioner of immigration, tendered his resignation. This will be acted upon. There will be a lively contest for the grand mastership.

Buffalo, Milwaukee and St. Louis are bidding for the 1904 convention.

BRYAN ON A TOUR.

Will Make Speeches Until the November Election.

Lincoln, Neb., Sept. 9.—W. J. Bryan has begun a speechmaking tour, which will continue with little interruption until the November election. He made the opening address to the members of the Grand Army at their state reunion near Hastings. He will open the campaign for the Democrats of Missouri at Joplin. He will make other political speeches during this month in near-by states. Practically all of October will be spent in Nebraska in the interest of the fusion state and congressional tickets.

MADE AN HONORARY MEMBER.

President Roosevelt Attends Firemen's Convention.

Chattanooga, Tenn., Sept. 9.—President Roosevelt was made an honorary member of the Brotherhood of Locomotive Firemen at the initial meeting of the convention here, after which the president delivered an address, the general public being admitted to hear him. At the close of the meeting the presidential party took carriages and led a magnificent parade through the principal streets of the city.

The president soon after left for Knoxville.

CYCLONE IN ARGENTINE.

Town of Bolivar Destroyed and Fourteen Persons Killed.

Paris, Sept. 9.—Dispatches received here from Buenos Ayres announce the destruction of the town of Bolivar, Argentine republic, by cyclone. Fourteen persons were killed and fifty injured.

Three Fatal Accidents.

Joplin, Mo., Sept. 9.—Three men were killed near here during the day. Outside of Joplin, Joseph Brookshire, an ex-councilman of this city, and Harry Smith, a miner, were killed by falling down a shaft at the Tennessee mine. At Lindon, Roy Elwood, a miner, lost his life at the Chapman shaft by being struck by a cage.

Last.

"Yes, sir," said the builder gleefully; "every house in that section is rented now but one."

"Ah! And that one," remarked his friend, "is last, but not leasest."—Philadelphia Press.

Her Vacation.

"But why are you taking your doctor with you on your trip?" he asked.
"There is to be so much going on," she answered, "and you know I am not very strong anyway."—Town Topics.

H. A. RIDER has reason for being a little chesty politically. When there was talk of Rider taking the republican nomination for county treasurer, Joe Meyer had several fits, and began to tire of politics. When Rider was mentioned for the state senate on the republican ticket, Br'er Vasaly promptly retired to his library, and when Rider finally filed for representative no democrat appeared against him. There is no democrat in this neighborhood who wants to play the game with that rough Rider boy.—Transcript.

BICYCLE THIEF'S GAME IS FOILED

Before Judge Blewitt This Morning he Took a Sixty Day Sentence.

WAS CAPTURED AT THE MILL

After Having Sold a Stolen Bicycle to F. H. Gruenhagen and Sneaking Off.

An astute individual giving the name of Alfred Mackenraw was gathered in by Chief of Police Nelson yesterday afternoon at a late hour and the catch is considered a good one, as the coy individual is evidently a bicycle thief of the professional stripe. The swiftness of his capture and incarceration was well carried out in court this morning when he was given sixty days in the county jail by Judge Blewitt to repay him for his little troubles.
Alfred, old boy, threw his hoof on a pedal in front of Mike Remmels saloon night before last and sauntered quietly away. He was too tricky to ride this wheel around town long, so to tangle things up a bit and keep the owner of the wheel off the lead he exchanged it for another wheel and left the first wheel taken in front of the Globe hotel. The second wheel belonged to John Rodman. This one he rode away and yesterday about noon came to F. H. Gruenhagen's store and offered to sell it for \$6. Mr. Gruenhagen knew from the actions of the man that the wheel was stolen and he began to dicker with him just to keep him interested until an officer arrived. The deal was made and the man started for the mill district, but Chief Nelson and Mr. Gruenhagen took after him and they caught him and brought him back to town. He fessed up and was given his sixty day sentence this morning.

Baseball Affairs.
Tenney of Boston leads the first base men of the National league in the batting department. Jack Doyle was at the top of the fielding averages up to the time he severed his connection with Andy Freedman's organization. Now Hughey Jennings, the lawyer player, has the honor, with a percentage of .986.
Harry O'Hagan is the poorest batting first base man in the league, and his work with the stick since he left Chicago has deteriorated several points.
Of the Chicago National men who have filled the first base corner this season Clark, the new man, has the best record up to the present time. Arthur Williams is next, and Dexter is down near the bottom of the list.
Bransfield of Pittsburgh and McCreery of Brooklyn are the only first base men who have occupied the position steadily since the opening of the season. Bransfield is credited with the most putouts and McCreery comes next.

Brown's Hard Turf Luck.
Captain S. S. Brown, the Pittsburg millionaire, has experienced much hard luck in his turf ventures during the past two years. Last season Meridian, considered the best two-year-old in his stable, was kicked by Hyphen and had to be destroyed. Early this spring Garm Hermann, for whom Captain Brown paid \$20,000, turned roarer, and recently the two-year-old filly Martie Lewis, by Sir Dixon—Lady Wayward, who was thought to be the best filly of the year, died suddenly.

Galvin's Promising Youngster.
Colonel James Galvin believes that he has a very fast trotter in the two-year-old Colonel Mosby, which he purchased at the Forbes farm sale at Readville last fall. The two colonels recently negotiated a half in 1:20 to cart over a half mile track. Colonel Mosby is by Blingen, 2:06 3/4, out of La Jola, by Advertiser, second dam the great brood mare Sally Benton, whose record, 2:17 3/4, was when made the world's mark for four-year-old trotters.

Lehigh's Football Coach.
A three years' contract was executed at a special meeting of the Lehigh University Athletic association whereby the services of Dr. S. B. Newton, formerly physical director at Lafayette, are secured to coach the football eleven at Lehigh. Dr. Newton will take the football team in hand on Sept. 1. Coach Newton already expresses satisfaction at the prospects and expects to turn out a first class eleven at Lehigh.

What Selee Let Go.
Harry Bemis is catching great ball for Cleveland and is hitting the ball finely as well. This is the Bemis that Selee once had on his lists. He also had Bransfield, now with the Pittsburg, but both men were allowed to go. Now both are ranked as crack players. Bransfield is considered one of the best first basemen in the land, and Bemis ranks with the best of catchers.

This morning while switching loaded logging cars at the hoisters a workman by the name of Hank Anderson became pinned between two logs that stuck out nearly to the bumpers on the cars and C. H. Brown, a brakeman, thinking to save the man's life rushed in between two cars that were also loaded with long logs and had his head caught and crushed while he was signalling the engineer himself with his foot. Brown died 30 minutes later but Anderson is still alive and hopes are entertained of his recovery.—Cass County Pioneer.

A HARD STRUGGLE.
Many a Brainerd Citizen Finds the Struggle Hard.

With a back constantly aching.
With distressing urinary disorders.
Daily existence is but a struggle.
No need to keep it up.
Doan's Kidney Pills will cure you.
Brainerd people endorse this claim.

Mrs. J. H. Zellers, of 63 Main street, says: "I believe after what Doan's Kidney Pills did for me they will help anyone similarly troubled. Before using them I suffered for six months from my kidneys, there was a miserable feeling of pressure over those organs and the secretions were scanty. Besides this there was a heavy pain across the small of the back. A box of Doan's Kidney Pills were gotten from the nearest drug store and as I was glad to try anything to obtain relief, I took the pills and really they acted like a charm. I can truthfully say that I have not had a symptom since. In my old condition I could not do a whole days work without my back giving me no end of trouble."

Sold for 50 cents a box, at the McFadden Drug Co., H. P. Dunn & Co. and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

WALKING SKIRTS

—AT THE—
CASH DEPARTMENT STORE.

THE Clever new shapes and ideas brought out this season have created a great demand for these sensible costumes, everything foretells their great popularity, this is largely due to the fact that the new walking shapes, if necessary, can be made to answer for the dress suit on so many occasions, as they combine many of the stylish features of the latter.

POST OFFICE AT GARRISON ROBBED

Offenders Who Tapped the Government Till Got Away with Something Like \$70.

CHIEF NELSON MAKES CAPTURE

Two Men Suspected of the Crime Are Caught and Run in This Morning.

Elias Eliason, postmaster at Garrison, arrived in the city last night, and reported to the police the fact that the post office at Garrison had been robbed night before last during the storm. It seems that the men effected an entrance to the building through a back door and pried open the money drawer. They got something like \$70 in cash and some other valuable papers.

The matter was reported to Chief of Police Nelson and he was on the lookout from that time on with the result that he locked up two men this morning whom he thinks are guilty of the crime. Their names are H. G. Hill and Jesse Dearfield, and when they were arrested Postmaster Eliason was the most surprised man of the three. They have lived at Garrison for some time and were the last persons in the building with the postmaster before he locked up. Chief Nelson's suspicions were aroused from the fact that they were spending money around town quite freely and had even opened a bank account at the First National. The two men arrested will have a hearing late this afternoon.

I am prepared to give violin lessons. Orders will be taken at Graham's Music store. H. A. LENSRED.

MUSIC AND DRAMA.

"PENNSYLVANIA."

Scientists for years have been puzzled over the cause of the many fires which originate, no one knows how, in the many culm piles throughout the coal regions. Culm is the fine dirt which remains after the coal has been run through the breaker and is of no use for fuel, yet in the open air it burns as easily as wood. Everything possible has been used to extinguish these fires, but they continue to burn. At night they are weirdly picturesque. A burning culm is produced in the drama, "Pennsylvania," which is to come to the Brainerd Opera House soon.

MOVING PICTURES TOMORROW.

Tomorrow night the moving picture exhibition of the Jefferies-Fitzsimmons fight and other good views will be seen at the Brainerd opera house. These pictures have been seen at most of the towns in this vicinity and they are said to be very good. It will make an interesting and profitable entertainment.

They Were Quietly Married.

The Minneapolis papers contained the information of the issuance of a marriage license to Mayor Dawes and Mrs. Barclay, both of Pine River, sometime ago, but no one ever saw the item about their being married. They were married, however, and on their return home they were given a great reception. On Friday evening Mr. and Mrs. Dawes will give a grand supper and ball in their hall in honor of the event.

LAND SALE WILL BE UNPRECEDENTED

Appraisers Have Been Busy Going Over the State School and University Lands.

SALE WILL BE ON OCTOBER 7.

The Appraisers Have Put Just a Fair Price on the Land so Far Gone Over.

J. S. Gardner, N. B. Chase and John McGowan, the three gentlemen appointed to appraise the state school and university lands in the county, have been rather busy the past week or two going over the lands in Crow Wing county. They have covered considerable territory and have prepared a list to be sold by State Auditor Dunn in this city on October 7 that will be the largest in the history of the county.

Mr. Gardner speaking about the matter this morning said that as far as possible the price that was set down has been made low enough so that the lands would surely be taken. He deems it better that these lands be settled up rather than left to go wild, so that the county can get revenue from the same from taxes.

GALL IN GREAT BIG CHUNKS.

Said that A. M. Flynn Picked up Some Players in St. Paul and Played Stillwater Under Name of Brainerd.

For consummate, immaculate gall, if reports are true, A. M. Flynn, who played with Brainerd's base ball team this summer has everything in this part of the state going over the hills to the pig pen. Brainerd people were surprised to learn through the medium of the St. Paul and Minneapolis papers yesterday that their base ball team played a game with Stillwater on Sunday at Stillwater and that "we" were beaten by a score of 7 to 5. From what can be learned, A. M. Flynn picked up a bunch of St. Paul players and dubbed them "Brainerd" and went down to the prison city for a game, knowing that the reputation that Brainerd's team has this year would draw a good crowd. No notification of the fact was made at Brainerd and the game was pulled off on schedule.

This may be "on the square" but most of the fans here think that it is on the rank order and especially after Flynn had been given a warm berth on the team in this city all summer drawing his little salary from the start and being made a good fellow of. It is a rank imposition and those who saw the game will certainly feel good when they learn what a hoax it was.

The following regarding the game is taken from the Stillwater Gazette: "The baseball aggregation that was defeated by the Wolves at Aurora park yesterday afternoon was not strictly the Brainerd boys but an aggregation of choice spirits that banded together in the hopes of downing Stillwater. Tommy Tucker, late captain of the St. Cloud Prairie Leaguers, was there with a grievance to play left field; Dan Beecher, captain and manager of Winnipeg, was on first base; "Chesty" Cox, a former St. Paul league pitcher, who has been playing this summer in the Three I league under the name of Williams, was in right garden; Dennis Collette formerly a White Bear pitcher but this season with Crookston, was on the slab but that mysterious south paw had his jerky curves straightened out for seven hits by the Wolves. O'Donnell, late of the Glueks, played center field. Berg, the third base man formerly played with the Great Northern. There were but three Brainerd men in the team."

"NORTH COAST LIMITED"

of the Northern Pacific which, in its two seasons of service has justly obtained the reputation of being the "Crack Train of the Northwest," was again placed in commission May 4, 1902.

This train replaced trains 11 and 12 and the twice-a-day through train services is maintained as heretofore.

The "Limited" runs between St. Paul and Portland, via Butte, Spokane, Seattle and Tacoma as in previous years, and is electric lighted, steam heated and vestibuled.

New, modernized Pullmans, the most advanced type of Tourist Sleeping Cars, new Northern Pacific Railway Dining Cars, the usual fine equipment of regular Day Coaches, etc., and crowning all, the superb Observation cars of the Northern Pacific Railway at the rear of these trains, all together form a train unexcelled anywhere. It is worth something to see the Northwest on a train like this. Passengers having paid for first-class Pullman berths have the privilege of the Observation car and its fine library and reading room free, others holding first-class tickets pay a small fee for the privilege.

This train carries the east-bound Yellowstone Park travel and the Park Pullman during the Park season, May 30 to September 15th.

ST. LOUIS SENSATION

ALLEGED BOODLING OPERATIONS
IN GRANTING OF STREET
FRANCHISES.

ISSUE OF BENCH WARRANTS

Eighteen Members and Ex-Members
of the House of Deputies Charged
With Receiving Bribes in Con-
nection With Suburban Street Railway
and Other Legislation—Their Ac-
cuser Makes a Statement.

St. Louis, Sept. 9.—A sensation was
caused during the afternoon by the
issuance of bench warrants for the
arrest of eighteen members and ex-
members of the house of deputies for
complicity with ex-Deputy J. K. Mur-
rell, who fled to Mexico last spring
after being indicted for bribery by the
grand jury for alleged boodling op-
erations in connection with the granting
of street franchises and who unex-
pectedly returned to the city through
the efforts of the St. Louis Post-Dis-
patch and will, it is stated, be granted
immunity from punishment for turn-
ing state's evidence.

Following are the names of the
alleged combine members for whom
bench warrants were issued, charging
bribery and perjury in connection with
Suburban Street railway and other
legislation: E. E. Murrell, J. E.
Schnetter, Charles W. Kelly, E. L.
Albright, George F. Robertson, Louis
Decker, John Helms, Charles A. Gutke,
Adolph Madera, H. A. Faulkner, Julius
Lehmann, Edmund Bersch, Otto Schu-
macher, John A. Sheridan, Charles J.
Denny, William Lamblin, J. J. Han-
nigan and Emil Hartman. Warrants
were served on Messrs. E. E. Murrell,
Schnetter, Albright, Robertson, Helms,
Gutke, Faulkner, Schumacher and
Hannigan. Albright and Faulkner
were released in bonds of \$30,000
each. The others arrested were al-
lowed to go to their respective homes
in the custody of deputy sheriffs who
will remain with them until they shall
have furnished surety for their ap-
pearance in court when the cases are
called for trial. With the exception
of William Lamblin, who was a mem-
ber of the last house of delegates and
said now to be in Cleveland, all the
indicted delegates are believed to be
in the city. Delegate Kelly tele-
phoned to the district attorney

That He Would Surrender
In the morning and give bond. The
police are watching the bridge and
other possible avenues of escape from
the city and it will be difficult for any
of the indicted men to remain long
out of the hands of the law.

J. K. Murrell made the following
statement for publication: "I have
surrendered unconditionally to the cir-
cuit authorities and have made a full
and free confession. I could no longer
stand the agony I endured as a
fugitive from justice and the wrong
done by the parties just as guilty
as I, who made me their catspaw."
"I am not permitted to give the de-
tails of evidence that I have put the
circuit attorney in possession of. This
will all come out on trial. I am
willing to go on the stand and tell
all I know. I had the key to the box
in the Lincoln Trust company contain-
ing the \$75,000 bribe money to go to
the house of delegates on the passage
of the Suburban bill.

"This money was put up as the pur-
chase price for the votes of the com-
bine, that price having been agreed
upon.

"The combine of the house of dele-
gates was composed of nineteen men.
This combine held frequent meetings
in the room adjoining the house of
delegates chamber. There most of
the schemes to get money were con-
cocted. When the Suburban matter
came up before the combine I was se-
lected to negotiate with Phillip Stock,
the representative of the Suburban
Railway company, as to the

Best Price We Could Get
for our votes upon the passage of the
bill.

"I reported the various negotiations
to the combine meetings and was in-
structed by the combine from time to
time what to do.

"When the price was agreed upon,
they designated me as the person to
hold the key to the box containing the
\$75,000, which we were to get
when the bill was passed and signed
by the mayor.

"The deposit of the money, the
amounts and the conditions were duly
reported by me to the combine meet-
ing. I am not permitted to make the
operations on this point public at this
time. The object of the combine was
to control legislation for the benefit
of members of the combine. Shortly be-
fore the Suburban bill the combine
sold their votes on the lighting bills
for \$47,500.

"This money was handled by Kelly
and was paid to the members of the
combine at a meeting assembled for
that purpose. Each member of the
combine received \$2,500.

LEAPED OVER THE BANISTERS.

Negro Thief Robs a Chicago Residence
of Valuable Jewels.

Chicago, Sept. 9.—Surprised while
looting the residence of "Patsy" King,
a wealthy bookmaker, at 1429 Wash-
ington boulevard, a negro thief leaped
over the banisters of the stair from
the second to the ground floor and
made his escape with more than \$1,-
000 worth of jewels.

The robbery occurred while Mrs.
King, her sister and children were at
breakfast. While rifling a jewel case
which he found in a dresser drawer
the thief was alarmed by hearing
Mrs. King's sister ascending the
stairs. He rushed into the hall,
leaped over the banisters and escaped.

SHOT HIS FATHER-IN-LAW.

Quarrel Near Oskaloosa, Ia., May Ter-
minate Fatally.

Des Moines, Ia., Sept. 9.—Marion
Jones, aged twenty-three, fatally shot
his father-in-law, George Gable, at the
latter's home, near Oskaloosa, during
the day. Jones went to Gable's farm
to get his wife, aged fifteen, whom he
married eight months ago. The two
men quarreled and finally exchanged
shots, Jones using a shotgun and
Gable a revolver. Jones said he acted
in self defense. Jones and his
young wife, who went away with her
young husband after the shooting,
were arrested at their home later.

Posse of Men With Bloodhounds Pur-
suing Sheriff Strain's Slayer.

Omaha, Sept. 9.—A large posse of
men with bloodhounds are still pur-
suing Frederick Carney, the slayer of
Sheriff Strain of Whiting county, Ia.,
who is supposed to be hiding on the
Indian reservation northwest of this
city. Carney has armed himself with
a rifle and carries a large amount of
ammunition and is said to be imitating
Tracy, the Oregon convict. He has
stopped at several farmhouses and se-
cured meals and left defiance for his
pursuers.

STRIKE UNIFORMLY OVER.

Miners Returning to Work in the
West Virginia Field.

Charleston, W. Va., Sept. 9.—While
the strike on the Kanawha and New
rivers has not officially been declared
at an end yet, it is uniformly over.
Three hundred men returned to work
in the New River field during the day
and it is thought the number will be
greatly augmented, as this was the
first break made in their ranks. Five
thousand tons of coal were loaded on
the New River. The normal output is
12,000 tons.

DUE TO MISUNDERSTANDING.

Pickets and Union Miners Have a Fa-
tal Fight at Maltby, Pa.

Wilkesbarre, Pa., Sept. 9.—A fight
between striking miners at Maltby re-
sulted in the death of Silvano Vancas-
telli and the probable fatal injury of
Frank Portay. Portay was stabbed
several times and is in the Wilkes-
barre hospital.

All night strikers gathered in the
vicinity of the Maltby mine of the
Lehigh Valley Coal company at Maltby
and the Harry E. colliery at Forty
Fort. It was rumored that both of
these mines were to start with a full
force of men, and the strikers had
pickets on all roads leading to the
mines to intercept any men who might
be on their way to work. A heavy
fog prevailed and it was difficult to
see people in the roadway. Shortly
after 7 o'clock a number of strikers
on guard at the Maltby colliery saw
two men approaching, carrying guns.
The pickets came to the conclusion
that they were nonunion men going
to work. The strangers were stopped
and strikers crowded around them.
One striker in the crowd, who spoke
the Italian language, said the men
were starting on a hunting trip and
that they were union miners. The
other strikers did not understand what
was said and attempted to take the
gun away from Vancastelli. He re-
sisted, a fight ensued and soon the
two Italians were lying in a pool of blood
in the roadway. Vancastelli was
shot in the side and the left side of
his face was crushed in. His compan-
ion, Portay, was stabbed in the side
several times.

NOVEL SURGICAL OPERATION.

Hip of a Man Fitted Into a Completely
New Socket.

Chicago, Sept. 9.—An extraordinary
and it is believed successful surgical
operation has been performed at
Mercy hospital by Dr. J. B. Murphy,
consulting surgeon of that institution.
The subject of the operation is Dr.
W. L. Griffen of Shelby, Mich., who
was severely injured in the hip a
year ago. The injury was then at-
tributed to by a local physician, but de-
spite his efforts the leg has been grad-
ually growing shorter. Recently in
Grand Rapids the X-rays were used to
discover the cause of this and it was
then found that the hip was com-
pletely out of the socket and was slow-
ly working its way upward. At Mercy
hospital Dr. Murphy took the case in
hand and for one hour and three-
quarters cut away new bone and ex-
traneous growth and fitted the hip
into a completely new socket. The
latest news of the patient is satisfac-
tory.

Chicago Bricklayers Strike.

Chicago, Sept. 9.—Three hundred

city on sewer work have gone out on

strike has tied up all of the sewer
work in the city.

An Old Welsh Custom.

The kindling of bonfires on hills is
the simplest of celebrations at any
time. The Druids made four great
fires at their festivals in February,
May, August and November. Wales
seems to have been a country espe-
cially tenacious of this custom. Each
family used to make its own fire, and
as it was dying out each member
would throw a white stone into it, the
stones being marked for future iden-
tification. Then all said their pray-
ers and went to bed, and in the morn-
ing they tried to find all the stones
again. If any stone was missing, it
betokened that the owner of it would
die within a year.

Some superstitions are pretty and
picturesque and attractive; this was
one of the many which were cruel as
well as picturesque. It would take but
a slight accident to cause a fright that
might be actually dangerous to a su-
perstitious person, and it would not
be hard for an enemy of such a per-
son to cause that fright by stealing
his stone from the fire.

London's Sewer Hunters.

The London sewer hunter before
commencing operations provides him-
self with a bullseye lantern, a canvas
apron and a pole some seven or eight
feet in length, having an iron attach-
ment at one end somewhat in the
shape of a hoe. For greater conven-
ience the lantern is invariably fixed to
the right shoulder, so that when walk-
ing the light is thrown ahead and
when stooping its rays shine directly
to their feet. Thus accoutred they
walk slowly along through the mud,
feeling with their naked feet for any-
thing unusual, at the same time rak-
ing the accumulation from the walls
and picking from the crevices any ar-
ticle they see.

Nothing is allowed to escape them,
no matter what its value, provided it
is not valueless. Old iron, pieces of
rope, bones, current coin of the realm
and articles of plate and jewelry—all
is good fish which comes to the hun-
ter's net.—Chambers' Journal.

The Chinese Way.

In its war with England and France
in 1850-60 China was easily conquered
and forced to a humiliating peace.
The Peking Gazette, the official organ
of the government, however, reported
the following concerning that treaty of
peace:

"As the western barbarians have ad-
mitted their wrongs and humbly so-
lmitted for peace, the emperor in his
infinite goodness has granted their
prayer and, moreover, has made them
a present of a large sum of money (in-
demnity of war) to enable them to be-
gin an honest life, so that they may
not again be driven to murder and
rapine."
